Mother Daughter Camp

For Years 7 & 8's and their Mums

Aug 26th - 28th 2016

Hanmer Springs

*Spending quality time with each other,
making lifetime memories...*

What's a Mother Daughter Camp?

Your little girl is heading to High School soon and you don't know where the time has gone! She's growing up so fast, so treasure these times, and spend some quality time together while you still can! Join other local Mum's and Daughters on a relaxing couple of days away from the norm, having fun, learning together, experiencing new things together and most importantly - making memories!

We will facilitate a few low key sessions to help build on your current relationship covering keys topics like communication. The camp is being coordinated by YAT Youthworkers, Teisha Nicholson and Kelsi Henderson, and Kelsi is bringing her own Mum too - Sharon, a trained counsellor, who will be leading some sessions.

Can I come without mum?

You can't come alone, but if you have someone else in your life who you treat as Mum, and lives with you, then of course.

More than one daughter?

If you have more than one daughter in Year 7 & 8 then we recommend starting with the older one and bringing the younger one next year. If you have twins, we would love to spend the weekend with both just have a chat to Teish or Kelsi.

What & Where?

We'll travel together in the YAT Vans to Hanmer Springs, and do all our activities there. We're staying at the Hanmer Springs Forest Camp, which has a mixture of single bunks and double beds, in various rooms. We will be relaxing in the hot pools, and weather depending - going for a hill walk.

How Much??

We want to make this as affordable as possible, so with the help of funders, it's just \$100 per mother & daughter couple including meals - less than a third of the actual cost!! This is only possible with the additional support of the New Brighton Parenting Scholarship Fund, which is applied to all attendees.

Meet: 5:15pm Friday 26th August
Grace Vineyard Beach Campus

Return: 4:00pm Sunday 28th August
