

## Health & Medical Conditions

If a youth has a condition that requires medication, this will need to be detailed on the enrolment form and a separate Medicine Consent Form available at time of enrolment. Medication will only be administered if the consent form has been completed. Parents will need to check this form with the Programme Supervisor to make sure dosages have been administered correctly.

## Sickness

Out of consideration for other participants, please do not bring unwell youth to the programme. However please notify Youth Alive Trust on 3885459 by 11am on the day of your young persons absence.

## Refunds & Cancellations

The Youth Alive Trust reserves the right to cancel any programmes where insufficient enrolments are received.

## PARENTS/CAREGIVERS INFORMATION

We welcome your family to a Youth Alive Trust programme. A complete copy of our Programme Policy and Procedures is available from Grace Vineyard Beach Campus, 111 Seaview Rd, New Brighton.

### Supervision and Safety

This programme is delivered by the Youth Alive Trust. Our supervisors and leaders have been specifically trained in health and safety, behaviour management and leadership skills. Staff ratio is 1:10 (leader: children) for activities at the base venue, and 1:8 on outings. There is always one first aid trained staff member present.

### Behaviour Management

Parents need to be aware that because safety is our first consideration our policy needs to be strictly adhered to. Parents will be notified if their youth are causing a disruption on the programme. Where serious harm may happen or occurs, or the youth are causing a disruption to the programme, the right to remove the youth immediately from the programme is reserved. If the youth is found to have any illness/behavioural condition that has not been included on the registration form, we reserve the right to remove the young person from the programme.

### Complaints Procedure

Please refer to the Programme Policy and Procedures for the full complaints procedure. The following procedure is in place for any concerns that may arise:
